He was looking at the master, George, with an unshared anticipation.

He looked round for the slippers, but Caroline Rusty had gone forward. He was, it seemed, engaged in an argument with her now—an argument that was conducted, on his side at least, without any of the vagaries of rhetorical display. The story begins and the conversation passed as they walk a quiet, growing, it had not as yet been concluded to them.

**You have to perspire —
you don't have to offend!**
Use Lifebuoy

—the one soap especially made to prevent "B.O."

EVEN glitzy girls perform, and the potential debt may risk the possibility of "B.O." We all perceive differently. And anyone preoccupied on your size soon turns stiff, becomes unpleasant, offensive. Play safe! You need Lifebuoy—REVENGE! Indeed. It's the one soap especially made to

REVENGE "B.O." No other popular soap has Lifebuoy's special deodorizing ingredients. It gives you **WASH, LASTING, ALL OTHER PROBLEMS!**

And how you'll love the tingling air of Lifebuoy's creamy lather! It leaves you like a goddess—**absolutely irresistible!** And that freshness **LASTS** and **LASTS**. Use Lifebuoy always for your bath—then you can be absolutely sure you'll never offend others by "B.O." Use Lifebuoy for face and hands, too—it's 20% BLENDER than many soaps, so it's gentle and baby-soft. Ask for Lifebuoy at your state soap.

A clean, white bar of Lifebuoy soap is shown inside its original, slightly crinkled paper wrapper. The wrapper has 'LIFEBUOY' printed in large, bold, sans-serif capital letters at the top. Below the name, there is a smaller, circular illustration of a person, possibly a woman, in a dynamic pose. The soap itself is a solid, off-white color.

Isn't YOUR face entitled to one?

Aren't you tired of shaves that hurt? Wouldn't you like a razor that performs so easily you *hardly realize* you're shaving?

Think of using a razor that is specially designed to shave whiskers off clean at the base without nicking or scratching your skin! And imagine a razor that changes blades *automatically*—a razor you never have to take apart or re-assemble—a razor that eliminates unwrapping and messy fumbling with blades.

You'll find all these and other advantages in just one razor—the Schick Injector. It contains the greatest improvements among the first safety razors came on the market about 40 years ago.

~~5,000,000~~
~~6,000,000~~

NOW 7,000,000

So far more than 7,000,000 men have switched from their old-fashioned ways of shaving to the Schick Injector. Every day more thousands of men are making the change. Get out before your next shave. Buy it at any drug or cigar store.

Only \$1.00

Including 12 double-thick Schick Blades in durable push-in-protective 20-cent package is stamped on the bottom of every box.

Automatic Blade Change. The Schick Injector is the only razor that changes blades *automatically*—quick as a wink! A pull and push on the Injector shoots out the old blade, slides in a fresh one *instantly*! Nothing to take apart.

Solid Guide Bar. Has a roughened grip surface that stretches and flattens the skin just ahead of the blade. Makes whiskers pop up in front of blade for closer and more comfortable shave. Blade corner guards eliminate skin nicks.

Double-Thickness Blades. Just as long, but twice as thick as ordinary blades—3 times as thick as paper-thin ones! *able* to take a really keen edge and *hold* it. Packed in metal cartridge—their cutting edges actually suspended in space.

Compact Head. The Schick Injector has the smallest head of any popular razor. It shaves just as wide an area but is only half as deep. You can reach those hard-to-shave spots with ease. Nothing to take apart when you clean—a quick flush under faucet does the trick.
